BOECO Macro Pipetting Aid offers safer, more convenient filling and dispensing, with glass and plastic pipettes. Vacuum is applied by an easypull slide lever, eliminating the hand stress caused by conventional "squeez bulb" apparatus. Simply pull on the slide whenever vacuum is needed. Onehanded control of aspiration, dispensing and vacuum saves time and leaves the other hand free to manipulate samples. The valve is in-line filter system, combined with the lightweight handle, provides outstanding operation, control, and safety for manual pipetting procedures.

- * A single rocker-switch accurately controls aspiration and delivery
- * Disposable, in-line filter prevents contamination
- * Holds 0.1 to 100ml pipets
- * Filter and pipet connector are autoclavable for decontamination
